

Why am I not self isolating?

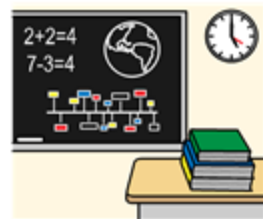

School looks very different at the moment.

This is because some students and staff are self isolating at home.

This can be very confusing.

You might be wondering why you are still at school.

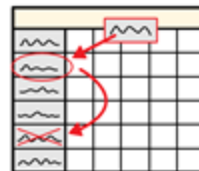

This means that you have not come into contact with anyone with Covid-19.

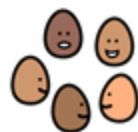

This is a good thing.

It means that you are safe.

However it also means that things at school might change.

Some of your class may not be at school. There may be different staff in your class.

This can be very hard.

Try to remember that the adults at home and at school are there to help you.

The most important thing is that you are safe, happy and healthy.
